

Dear Parent or Guardian,

I am pleased to tell you that we are using a website called IXL as an option for summer math. IXL is a comprehensive learning program offering unlimited math practice across thousands of skills. One of the best things about IXL is that your child can access it from home, so you have a chance to see their progress!

To get your child started on your home computer, please follow these easy steps:

1. Go to <https://www.ixl.com>
2. Enter your child's username and password and click "Sign in."

IXL is designed to help your child learn at their own pace. The program is adaptive and will adjust based on your child's demonstrated understanding of the material. All of your child's results will be saved, so you can monitor their progress any time by clicking on Analytics. For on-the-go practice, you can download IXL's free mobile apps for Apple, Android, or Kindle and sign in with your child's username and password.

I hope you'll encourage your child to use IXL regularly. If you have any questions about how to use the program, or if your child is unable to log in, please feel free to contact Rebekah Meredith at rmeredith@trinitylex.org.

Sincerely,

Rebekah Meredith

INCENTIVES:
